CAREER BREAK

Supporting Family

My Father lost his job. We have to return to our village. I was unable to pursue higher studies because I have to support my family financially. During this period I became a person with **patience**, a **good listener**, a **caretaker**, and developed **time management** skills.

2006 – 2017
Ranchi, India

State Civil Service preparation

I prepared for the JPSC. I cleared the preliminary exam but was unable to clear the main. The selection process is too long, and still in progress. So, instead of waiting for another couple of years, I decided to change my career field. Yet I learned general knowledge and **patience** during this period.
